How long have you known this client?

Would you consider him/her a responsible pet owner?

To the best of your knowledge, are his/her animals up-to-date with their shots?

Were they spayed/neutered?                      Indoors/outdoors?                      Declawed?

Have they been tested for Feline Leukemia?                      For FIV?

Results?

Are there any reasons why you would NOT recommend placement of a Siamese cat with this client?

Any other comments?

May we telephone you if needed?
